1.70	205	1845. Uncirculated, mint lustre, rare in this condition.
1.30	206	1846. O. mint. uncirculated. proof surface, rare.
3.50	206½	1839 Brilliant proof, splendid impression. This dollar was gotten at the mint the day it was struck by Dr. Roper of Philadelphia. Dr. Roper was then one of the leading collectors in Philadelphia. at his death it was presented to Miss Pittman of Baltimore, who has kept it carefully for forty years, on account of its great beauty, not knowing until very recently of its

value, it is now catalogued for her. I mention the above fact in order to dispel all doubts of its being one of the very few originals that were struck. Many of the rare pieces now-a-days and are believed to be re-strikes. The ragged sharp edges, and modern white brilliant proof surface of many of the rare pieces now sold look suspicious to say the least. This dollar has that dark, rich, brilliant steel like color that age and originality only can impart. *Very rare.*

A sworn certificate will accompany each of the above medals, to the effect that only 21 were struck in each metal, and the dies were destroyed on the spot, in the presence of members of the Baltimore Numismatic Society. An interesting history (printed in my last catalogue) concerning the striking of three original medals from the same dies, &c., will be sent to any one desiring it. These medals were subscribed for at the time of striking, viz.: \$5.00 for silver, and \$2.50 each for brass and copper ones. All have been sold except the two sets in this sale. I believe the time will come when these medals will sell for as much as one of the three originals did in the Bushnel & Mickley sales, \$42.50 and \$43.00.
